

ECONOMIC RECOVERY TRACKER

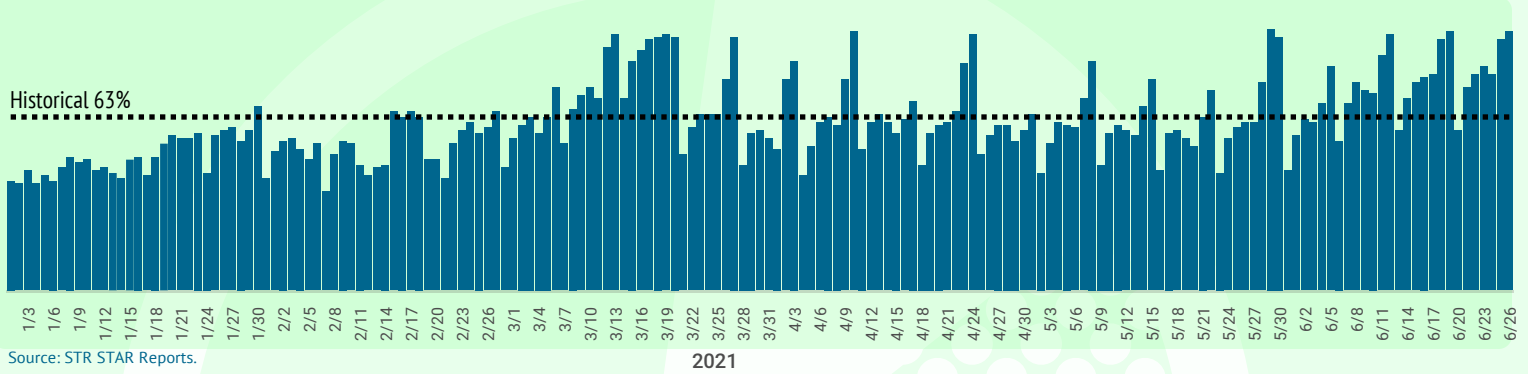

Corpus Christi MSA

Data last updated: July 2021

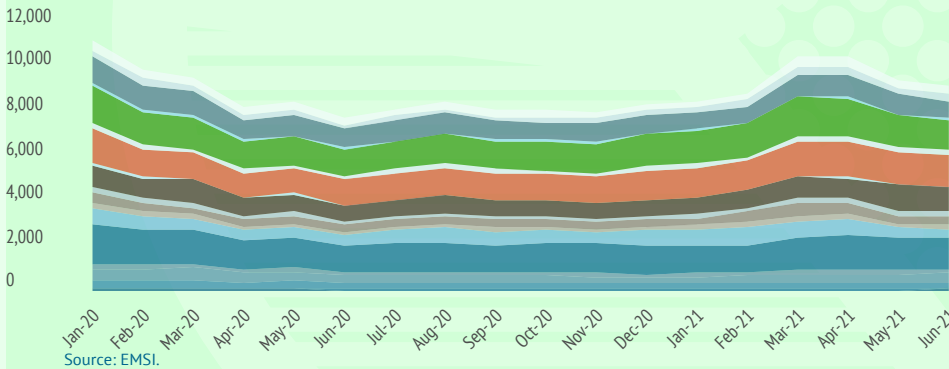

The pandemic is not over yet. But after the state lifted the face mask requirement and reopened Texas 100%, Corpus Christi is transitioning to a post-pandemic economy. This dashboard presents timely data that keep track of this progress and help forecast our near future. The lodging industry, hit hard by the pandemic, is the key driver for the region's rebound. In the labor markets, job postings in different industries reflect workforce demand, which is driving regional employment to return to its pre-pandemic level.
